

Future Business Leaders of America

What is FBLA?

FBLA is an opportunity to learn a wide variety of business concepts and compete at the local, state, and national level against other middle and high school students on:

- Individual and team tests in almost every business topic area
- Public and impromptu speaking

FBLA is a great way for middle and high school students to learn about several college majors that they may not be exposed to as much in the classroom as other subjects.
